Contents Volume 47

Nos. 1, 2

Z. Yun, J. Lundeberg, B. Johansson, A. Hedrum, O. Weiland, M. Uhlén, A. Sönnerborg (Sweden)
Colorimetric detection of competitive PCR products for quantification of hepatitis C viremia 1
B. Selb, B. Weber (Germany)
A study of human reovirus IgG and IgA antibodies by ELISA and Western blot 15
A. Carlsson, J. Kuznar, M. Varga, E. Everitt (Sweden, Chile, Australia)
Purification of infectious pancreatic necrosis virus by anion exchange chromatography increases the specific infectivity 27
Q.H. Wu, J. Ascensao, G. Almeida, S.J. Forman, J.D. Shanley (USA)
The effect of short-chain fatty acids on the susceptibility of human umbilical vein endothelial cells to human cytomegalovirus infection 37
V.S. Dar, S. Ghosh, S. Broor (India)
Rapid detection of rotavirus by using colloidal gold particles labeled with monoclonal antibody 51
G.L. Lawrence, J. Gilkerson, D.N. Love, M. Sabine and J.M. Whalley (Australia)
Rapid, single-step differentiation of equid herpesviruses 1 and 4 from clinical material using the polymerase chain reaction and virus-specific primers 59
M.A. El-Farrash, M. Kannagi, M.J. Kuroda, T. Yoshida, S. Harada (Japan)
The mycoplasma-related inhibitor of HIV-1 reverse transcriptase has a DNase activity and is present in the particle-free supernatants of contaminated cultures 73
P. Parvaz, E. Guichard, P. Chevallier, J. Ritter, C. Trepo, M. Sepetjan (France)
Hepatitis C: description of a highly sensitive method for clinical detection of viral RNA 83
U. Kumar, H.C. Thomas, J. Monjardino (UK)
Serum HCV RNA levels in chronic HCV hepatitis measured by quantitative PCR assay; correlation with serum AST 95
Z.Q. Xiang and H.C.J. Ertl (USA)
A simple method to test the ability of individual viral proteins to induce immune responses 103
P.D. Olivo (USA)
Detection of herpes simplex virus by measurement of luciferase activity in an infected-cell lysate 117
M. Busso, L. Resnick (USA)
Development of an assay that detects transcriptionally competent human immunodeficiency virus type one particles 129
S.V. Lair, T.E. Mirkov, J.A. Dodds, M.F. Murphy (USA)
A single temperature amplification technique applied to the detection of citrus tristeza viral RNA in plant nucleic acid extracts 141
N.T. Constantine, J. Bansal, X. Zhang, K.C. Hyams, C. Hayes (USA)
Enhanced chemiluminescence as a means of increasing the sensitivity of Western blot assays for HIV antibody 153
F. Tenllado, I. García-Luque, M.T. Serra, J.R. Díaz-Ruiz (Spain)
Rapid detection and differentiation of tobamoviruses infecting L-resistant genotypes of pepper by RT-PCR and restriction analysis 165
A. Minafra, A. Hadidi (USA)
Sensitive detection of grapevine virus A, B, or leafroll-associated III from viruliferous mealybugs and infected tissue by cDNA amplification 175
B.K. Rawal, J.C. Booth, S. Fernando, P.D. Butcher, R.L. Powles (UK)
Quantification of cytomegalovirus DNA in blood specimens from bone marrow transplant recipients by the polymerase chain reaction 189
N.E. Bishop, D.L. Hugo, S.V. Borovec, D.A. Anderson (Australia)
Rapid and efficient purification of hepatitis A virus from cell culture 203
K.L. Yap, S.K. Lam (Malaysia)
Infectivity titration of the fast-replicating and cytopathic hepatitis a virus strain HM175A.2 by an in

situ enzyme immunoassay 217
A. Rosner, A. Stein, S. Levy, H. Lilien-Kipnis (Israel)
Evaluation of linked PCR-transcription amplification procedure for bean yellow mosaic virus detection in gladioli 227
Short Communication
B. Qian, F.S.B. Kibenge (Canada)
Observations on polymerase chain reaction amplification of infectious bursal disease virus dsRNA 237

No. 3

G.G. Schlauder, I.K. Mushahwar (USA)
Detection of hepatitis C and E virus by the polymerase chain reaction (*Review*) 243
N. Lukács (Germany)
Detection of virus infection in plants and differentiation between coexisting viruses by monoclonal antibodies to double-stranded RNA 255
P. Van Woensel, J. Van Der Wouw, N. Visser (The Netherlands)
Detection of porcine reproductive respiratory syndrome virus by the polymerase chain reaction 273
C. Hohenadl, K. Klingel, P. Rieger, P.H. Hofschneider, R. Kandolf (Germany)
Investigation of the coxsackievirus B3 nonstructural proteins 2B, 2C, and 3AB: generation of specific polyclonal antisera and detection of replicating virus in infected tissue 279
H. Wang, M. Chen, Z.N. Berneman, G. Delgado, J.A. DiPaolo (USA)
Detection of human herpesvirus-6 in paraffin-embedded tissue of cervical cancer by polymerase chain reaction 297
J. Drescher, W. Verhagen (Germany)
Method for determining the equilibrium constant and the concentration of influenza virus IgG antihaemagglutinin antibody molecules by use of EIA titres determined with and without guanidine hydrochloride 307
N. Bianchi, C. Mischiati, G. Feriotto, D. Fiorentino, S. Di Biase, N. Apicella, R. Gambari (Italy)
Capillary electrophoresis: detection of hybridization between synthetic oligonucleotides and HIV-1 genomic DNA amplified by polymerase-chain reaction 321
P. Chen, Z.-Q. Liu, C. Wood (USA)
Use of TrpE fusion protein to identify antigenic domains within the BIV envelope protein 331
Short Communication
A. Rodríguez, J.I. Núñez, G. Nolasco, F. Ponz, F. Sobrino, C. de Blas (Spain)
Direct PCR detection of foot-and-mouth disease virus (*Short Communication*) 345
